

Fruitvale ISD – Food Services
2014 – 2015
(effective 8/1/2014)

We are pleased to announce that all students will receive a free breakfast and lunch each day.

Student Accounts

Parents may prepay funds into their child(ren)'s account for purchase of snacks, extra items, etc. If sending money with a small child, please place the funds in an envelope and note the child's name and grade in order to credit the appropriate account. Payments may also be made in either campus office, the administration building, or the cafeteria. There is a "No Check Cashing" policy. Checks made out to the school cafeteria will be fully applied to a student's account. Charging will not be allowed for snacks, a la carte items, drinks, ice cream, or extra meal components.

Outstanding Meal Charges

Should your student have meal charges from previous years, school district administration and campus administrators will facilitate collection of meal charges by contacting parent or guardian of students with meal charges and by adhering to district policy to not allow student to participate in school non-academic events and field trips if the student has any unpaid funds. The cafeteria manager will also pursue collection of outstanding charges by making phone contact with parent or guardian.

Prior to withdrawing a student, the school campus will contact food services to confirm that there are no outstanding charges and attempt to collect from parent, guardian, or student (if applicable based on grade level) prior to processing withdrawal request.
