The goals from the May 13, 2015 meeting were read and discussed.

1. Opportunities are being given to teachers who want to take on leadership roles such as leading CIT meetings, curriculum meetings, and trainings.
2. Opportunities have been implemented for Middle School students to participate in activities. The Challenge class is one example of students having time to engage in Project Based Learning activities.
3. Technology for the district has been updated. Elementary and Middle Schools will be implementing an online program that will provide students learning opportunities in Math and Reading.
4. Teachers are emailing and calling parents as a way of touching base with them to keep parents informed and involved.

The plan from last year was discussed and updated to reflect any changes for this year. All of the members present agreed upon the changes and Tonya Watson will get it updated electronically and sent out to members.

Future meeting dates were handed out and everyone agreed on these dates.
